Halimatussadiyah Lola Putri

UI/UX Designer

Yogyakarta, Indonesia · sadiyahputri32@gmail.com · linkedin.com/in/putrisadiyah

Summary

UI/UX designer who turns ideas into clean, intuitive interfaces for web and mobile. Has designed end-to-end flows for ticketing, tourism, service, and point-of-sale products in Figma, from wireframes to high-fidelity prototypes. A front-end development background (Vue.js, Tailwind CSS) keeps designs realistic to build and easy to hand off to developers.

Design Projects

Ticketing – Cinema Booking Website · UI/UX Designer & Developer

- Designed the full booking journey, from sign-in to payment history

DEWIJI – Yogyakarta Tourism Platform · UI/UX Designer & Front-End Developer · Team project (4 people)

- Designed flows for login and registration, destination listings, car rental, and holiday package booking
- Built the front end from those designs, turning the Figma screens into a working, responsive website

MYJOYY – Cleaning Services Mobile App

- Designed onboarding, sign-up, home, notification, and location screens for a cleaning service app

Nicky Frozen – Point-of-Sale System · 2026

- Designed user flows, wireframes, and the full cashier UI in Figma

Personal Portfolio Website

- Designed and built a responsive Vue.js portfolio with animations, project filters, and a contact form

Experience

Fullstack Web Developer Intern – PT GIT Solution (Remote) · Oct 2024 – Dec 2024

- Designed the UI/UX and built front-end pages for a cinema ticketing platform using Vue.js and Tailwind CSS, covering the booking flow, movie detail, profile, and transaction pages
- Contributed to server-side features with Node.js
- Collaborated remotely with the development team through Git and GitHub
